**Our Hand For Help Charitable
Foundation Society**

➤ **FOOD DISTRIBUTION:-**

Have you ever stopped to think of the food you eat ? Most probably No as you are fortunate enough to get 3 time meal easily without any sufferings and trouble. But the sad reality is that even in today's world of such a wide range of food products, a mind boggling number of people are still facing the hunger crisis. And why is it so – Poverty which is one of the major problems in our country. The poor people are not able to achieve the basic needs of their lives even after their hard work due to social discrimination.

Hunger and starvation leads to malnourishment of individuals which lead to a poorer quality of life and as such hunger leads to more hunger and the vicious cycle continues.

Hunger crisis leading to the economic and social down growth of this country is one of the major concerns of Our Hand For Help Charitable foundation and we on the 11th May 2019 conducted a food distribution programme on the Roadside area of Jaipur City and in the Mother Teresa Home for needy people in C-scheme Jaipur. We gave food packets to around 500 roadside people and around 250 people in Mother Teresa Home. The food packets included chapati, sabji, sweets and pickle prepared by our own team.

➤ Program for Our Future:-

In today's world where one can reach the other corner of world without displacement, education has become an essential part of human life. Even if not that advanced, basic knowledge is necessary for an individual to be aware of the society and to thrive in this journey called life. But it is not that easy as there stands many social barriers in the way, of these the most significant is poverty. The concept of role a child should play in the society is still not clear , for example even now the poor people take them as source of income resulting in major issues as child labor and child trafficking and this deteriorate the child's lifestyle and thinking. This vicious cycle then is carried on.

Attaining education is the right of each and every person no matter the age, financial conditions, caste, etc. Our Hand For Help Charitable foundation stands with this and did at their level of what they could. On 13th August 2019 , we visited 10 govt. Schools in Chomu, Jaipur and spent some time with around total of 800 students. After having a short session

on the necessity of education we distributed each student with some study materials including notebooks, pencils, erasers, etc

On the very same day, we also planted around 50 trees as an attempt to reduce global warming and providing awareness of the same.

- Another attempt we made for this cause is by helping an underprivileged needy child named Aruna Sharma D/O Harinarayan Sharma of Krishna Colony, Chomu, Jaipur(303702). We admitted her to a respectful institute – Rajani Public Senior Secondary School Chomu and shall pay for her expenses till she complete schooling.

➤ Program at The Earth Savior Foundation:-

In India, a fraction of the population suffers from mental illness. Sadly much of them is neglected and turned a blind eye on. There are very few dedicated individuals in our country dedicated towards the well being of mentally ill people. One of those few kind hearted individuals is Mr. Ravi Kalra (Karma yogi: KBC Fame) who

started THE EARTH SAVIOUR FOUNDATION situated in Bandhwadi, Gurugram.

This foundation currently serves 550 mentally ill and homeless people, most of them who were abandoned by their families or guardians.

This foundation also carries out the funeral (cremation or burial) of those who were not fortunate enough to get one by their families or had no families hence could not get a funeral.

On 13th November 2019, OUR HAND FOR HELP CHARITABLE FOUNDATION interacted with mentally ill people there. After the interaction session, we donated essential food material like sugar, oil, flour, pulses, rice, milk, clothes, etc. to sustain them for few days.

➤ **Work for a cute smile**

In this world, many people are suffering from diseases which makes their life vulnerable. They become fully or partially dependent on their family members.

One such girl is Manisha (Dabbu) suffering from Cerebral Palsy since birth. She is unable to walk and stand properly.

OUR HAND FOR HELP CHARITABLE FOUNDATION concern and have sympathy for these people. We met Manisha in 2017. And to help her so that she lives her life with dignity.

OUR HAND FOR HELP CHARITABLE FOUNDATION organised a funding on the crowdfunding platform Milap.com. By this initial funding, we have given treatment to Manisha by a physiotherapist.

➤ Christmas Celebration for Needy :-

Warm clothes are the basic need of poor people in winters. Many people cannot afford good quality warm clothes. And for this, on the day of Christmas 25th of December 2019, OUR HAND FOR HELP CHARITABLE FOUNDATION organise a programme to distribute winter and normal clothes and food packages to the needy ones.

Reusable winter and normal clothes were collected from the college students and some kind donors. We distributed clothes and food packets in slum areas, road side area(Chomu to Jaipur city). Around 1000 persons of all age were benefitted from this noble cause.
